# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

A warm front will spread rain across areas mainly north of Highway 36 by late afternoon. An associated cold front will promote additional rain on Thursday and Friday.

#### **San Francisco Weather:**

Slightly warmer temperatures are expected today through Thursday along with generally dry conditions. Another storm system will then bring cooler temperatures and chances for precipitation back late Thursday night through the start of the upcoming weekend.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Milder temperatures are forecast today and Thursday, then another weather system will bring a chance of precipitation along with cooler temperatures later Thursday into Saturday. Thunderstorms are possible on Friday.

#### **Hanford Weather:**

Temperatures will continue cooler than average today before rebounding slightly Thursday. Another storm will arrive at the end of the week, bringing winds, cooler temperatures and a chance of rain and snow to Central California.

## **WEATHER SYNOPSIS BY REGION: (Cont.)**

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

The breezy to gusty winds will persist for portions of Southwest California tonight into early Wednesday then the low will exit east. A high will build in by midweek for a short warming, and then a low arrives on Friday with possible precipitation that will linger into Saturday. A high will take hold early next week and, with offshore winds, will bring a significant warming trend into midweek.

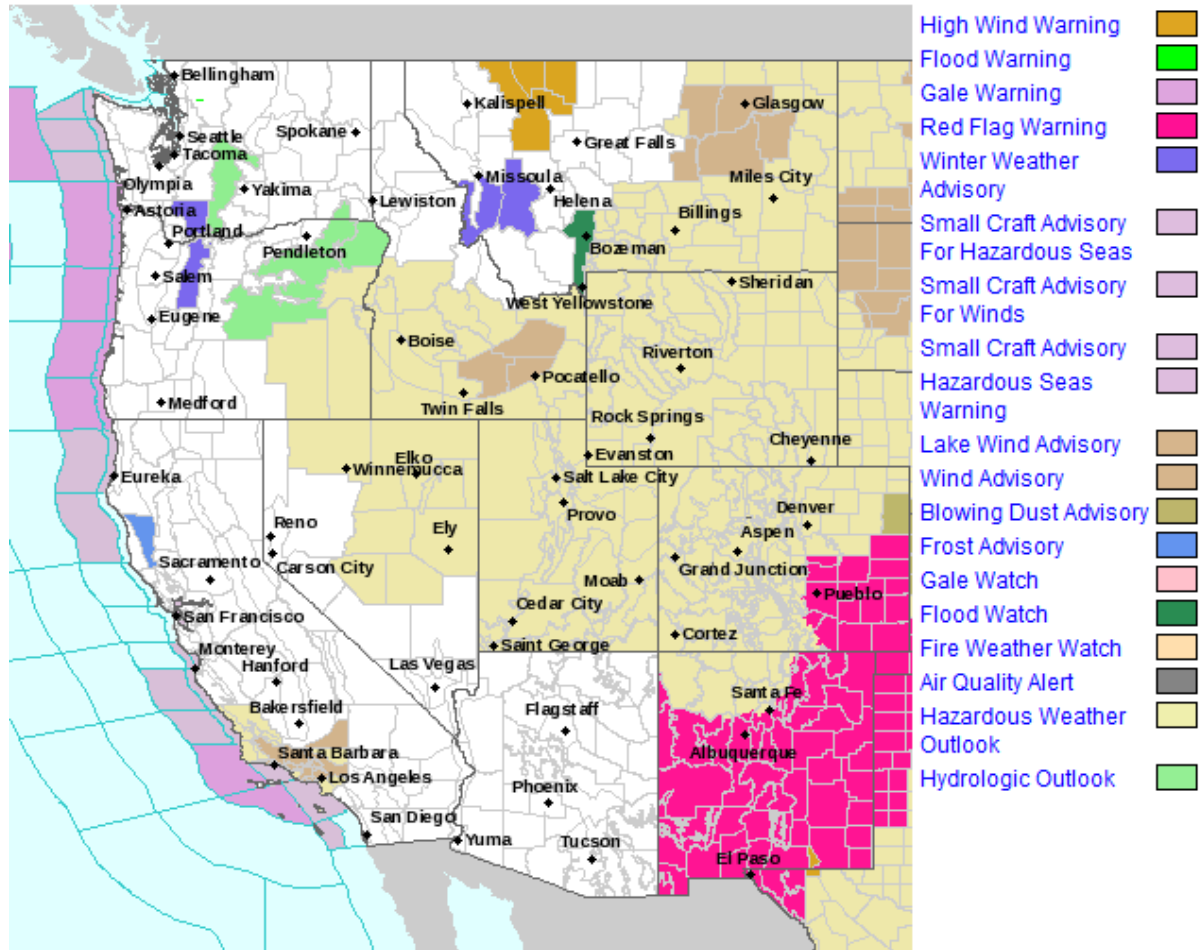

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Winds will continue to decrease this morning. Weak high pressure will bring fair seasonal weather through Thursday. A strong low pressure trough will move through southern California Friday and Saturday bringing cool and windy weather as well as some showers along and west of the mountains. Fair and much warmer weather will develop next week.

#### **Southeast California Weather:**

The weather disturbance that brought gusty winds and areas of blowing dust to Southeastern California on Tuesday is expected to bring cooler temperatures today as it moves off to the east. Warmer temperatures will make a return Thursday and Friday. Another much stronger low pressure system will then affect the region from Friday onward into the upcoming weekend. Breezy to windy conditions can be expected along with much cooler temperatures on Saturday.

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

## **Cal EOC Incident – 2014 Drought**

### **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

This week brings cooler and wetter weather across the state, although precipitation will likely be limited.

**\*\*As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.\***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

## **Situational Summary (cont'd)**

Information as of 4/21/14

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The most recent snowpack survey, conducted on April 1, recorded California snowpack at 32% of normal. A more recent update using automated devices shows snowpack at 19% of normal as of April 20.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

## Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2679** The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day.
- **2014-FIRE-2588** Cal OES Fire Branch opened a mission to coordinate and track Urban Search and Rescue (US&R) personnel assigned and deployed in support of response and recovery efforts due to the large landslide that occurred on 3/22/14 in Oso, Snohomish County, Washington State.
- **2014-LAW-2483** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

# CAL OES MISSIONS

## Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2478** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

# **UPCOMING EVENTS, TRAINING, EXERCISES**

## **Full-Scale Security Exercise at Folsom Dam**

- The Bureau of Reclamation, in cooperation with the Sacramento County Sheriff's Department/Folsom Dam Security Bureau, City of Folsom Police and Fire Departments, California State Parks, Sacramento Office of Emergency Services, the U.S. Army Corps of Engineers and the Sacramento County Department of Technology, will conduct a full-scale security exercise at Folsom Dam [today, April 23](#).
- The exercise will simulate emergency response activities at Folsom Dam. The exercise will begin at 8 a.m. and conclude by 4 p.m. and will allow emergency response agencies to check security systems, practice tactical skills and perform multi-agency coordination.
- An Incident Command Post will be established close to Reclamation's Central California Area Office (CCAO), which is located at Folsom Dam. The public may see emergency response vehicles and personnel throughout the day participating in the exercise.
- Folsom-Auburn Road and the Folsom Lake Crossing bridge will remain open throughout the exercise. Although it is unlikely the public will notice any unusual activity at the dam or on the surrounding federal property, they should be aware that the exercise is under way. Normal business will continue at CCAO during the exercise.
